

Paid Glacier Internship

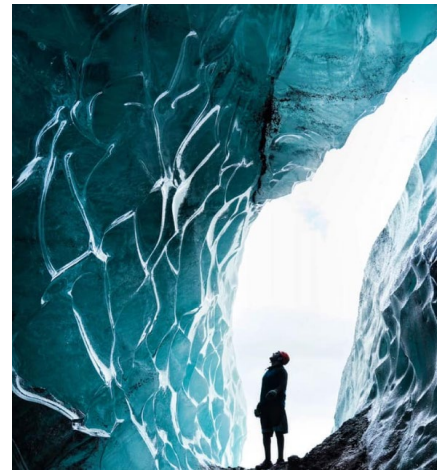

Matanuska Glacier, Alaska

Now Accepting Applications for Glacier Interns: Summer 2023, and also Full Year Options

The Matanuska Glacier Park is a family-owned glacier tourism business located 2 hours north of Anchorage providing an improved access to the beautiful Matanuska Glacier, one of the largest road-accessible glaciers in Alaska. Post work free time allows for outdoor recreation during Alaska’s ~20 hours of summer daylight (camping, hiking, river rafting, ice climbing, etc.)

What the job entails: Interns rotate among different shifts and taskings, including: glacier guiding, general maintenance of the park and trails, cooking, firewood collection, cleaning, cashier/retail work in the gift shop, and other duties as assigned to support the park.

Positions: Summer positions include daily shift work for \$500/month and guides may also earn tips from clients. We provide meals, shower, laundry, and a nice spot to camp with your tent throughout the summer. Onboarding training is provided as needed, to including “Introduction to Glaciers” taught by the Park Glacial Geologist (PhD). Full year positions allow interns to stay during the Fall-Winter-Spring and include indoor sleeping quarters from September though April.

What we are seeking: Our Glacier Interns are entrusted with responsibility for guiding clients on tours over the ice. We select for candidates with excellent people skills, strong work ethic, professionalism, prior outdoor experience, positive outgoing attitude, and an academic background complimentary to this work (e.g., Earth Sciences, Life Sciences, Geology, Geography, Biology, Environmental Science, as well as motivated non-science majors with high GPAs and demonstrated outdoor experience). Candidates should have basic working knowledge of simple hand tools (axe, hammer, rake, shovel, etc.), a valid drivers license, and no criminal record. Use of drugs or intoxicants of any kind (legal or otherwise) is grounds for immediate dismissal. Reckless behavior will result in termination of employment. Dogs are not permitted. If selected, you will need to bring an Apple Smartphone with an AT&T coverage plan including unlimited text and voice (other phones and providers are not locally sufficient for communications on the glacier).

HOW TO APPLY: Email the below application materials to blueice@mtaonline.net

1. Resume: Your resume should include:

- **Biographical Data:** name, address, phone number, email, age (no social security #s)
- **Academic History:** colleges or universities attended, majors & minors, GPAs, graduation date
- **Employment History:** list your employment history along with other relevant experience including supervisor contact (phone number and email)

2. Cover letter: Your cover letter should explain:

- Knowledge, skills, and abilities that make you stand out among other applicants
- Start and end dates that you are available this summer
- Foreign languages spoken & proficiency
- Physical or medical conditions that may impact your work

3. Professional References: Provide two letters from professional references with email & phone numbers; one reference must be a professor

4. Certifications: Prior to arriving onsite, you must present a current First Aid and CPR Certificate valid through at least 30 Sept 2022 (certification must be American Heart Association compliant, usually a 6+ hour class including a practical)
