UNDERGRADUATE CURRICULUM INNOVATION

While at Montana State University, three courses with an international focus have been developed: *Follow the Grain* and *Conception to Consumption* are capstone courses, with student scholarships funded through an industry-supported endowment, examine the global grain and livestock industries from their use of bench science to international marketing. During these courses, which are now a permanent feature of the curriculum, students have travel to other countries (for example, China, Taiwan, France, Ireland, Italy, the United Kingdom, Argentina and Australia) to understand experientially the structure of those industries in a global environment. The third course, *Money and Music* (co-taught with a professor from the music department), is an honors program initiative examines the evolution of music (and music composition) from socio-economic, technological change, and musicological innovation perspectives in a specific country, which students then visit to carry out research projects. In addition, an Economics Scholarship Seminar course has been established (now being offered for the 20th year) and an honors *Introduction to Economics* course has been instituted.

EXTENSION OUTREACH PROGRAMS

Since 1994, an annual average of more than 15 extension outreach programs have been presented across the state of Montana and nationally in collaboration with extension specialists. The targeted audiences have included agricultural producers, agricultural commodity groups, business leaders, American Indian educators, state legislators, and Congressional delegations. The program areas addressed include:

- Agricultural commodity market outlooks
- Agricultural commodity policy
- Crop, livestock and whole farm insurance
- Agricultural trade policy
- World wheat markets
- State trading enterprises
- Rural poverty
- Energy policy and agriculture
- Economic Growth in China and Implications for Montana's Economy
- Federal and state crop insurance programs
- Economic education in the secondary school systems
- Economics of traffic safety legislation
- Teaching economics in Montana high schools (through the Montana Council on Economic Education)

In addition, as co-director of the Agricultural Marketing Center (since 2000), responsible for funding and organizing several outreach conferences and numerous outreach publications, as well as establishing and organizing the MSU College of Agriculture Annual Agricultural Outlook Conference, initiated in 2007 and now sponsored by external private sector and agricultural organizations. As a member of the Montana Council on Economic Education (with Myles Watts and the Director of the

Montana Council on Economic Education), since 2002, co-organizer of, and participant in program delivery in twelve conferences and workshops on economic education in the Montana High Schools.
