Start Exploring Adobe Spark Today!

01 Accessing your Adobe Account

2. Click Sign In in the upper right corner.
3. Next, select Log In with School Account.
4. In the email field, enter @student.montana.edu. Then, hit Continue.
   
   **Note:** There is no need to enter your full email address or a password at this step.

5. You will be redirected to the Montana University System login page. Enter your NetID credentials and click Login.

02 Create a New Spark

1. Click the blue plus button to create a new project.
2. Start from scratch or search for auto-generated templates to create graphics, documents, web pages, and videos.
3. Within your project, you can add icons, photos, fonts, backgrounds, animation, music, themes, and more!

Spark allows you to create visually appealing posters, social media content, websites, and videos in the fraction of time that it would take you to design outreach materials using alternative programs. Plus, like many Adobe tools, Spark is intuitive and automates the design process. No design experience is needed to use it!
