Producer Profile

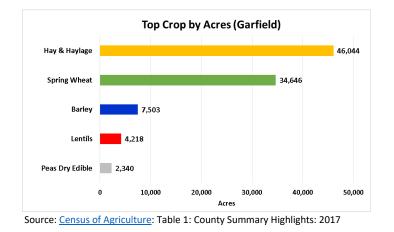

The county producer population was about the same age as the Montana producer population. Thirty-eight percent of county producers were under 55 years of age, while 36% were over 65 years of age. Thirty-four percent of the Montana producer population were under 55, while 36% were over 65 years of age. Sixtytwo percent of producers in the county were males, while 60% of Montana producers were males. Farming was the primary occupation for 56% of county producers, while farming was the primary occupation for 50% of Montana producers.

	County		State	
	Number of		Number of	
Characteristics	Producers	%	Producers	%
Age				
18 – 25	1	0	570	1
25 to 34	62	12	3,285	7

Top Crops by Acres

The top crops were hay and haylage, spring wheat, barley, lentils, and peas dry edible.

Top Livestock

The top livestock were cattle, sheep, poultry (chickenslayers), and hogs.

Livestock	Number of Head	
Cattle	74,262	
Sheep	12,587	
Chickens-Layers	226	
Hogs	91

(Poultry)

Employment Impact

Agricultural production employed 327 workers, or 43% of the county's labor force. According to IMPLAN, economic impact model, 215 of the workers were directly employed in production agriculture. An additional 84 workers were employed in businesses supporting agricultural production, such as feed and fertilizer dealers, and another 28 workers were employed in other related businesses, such as grocery and drugs stores. For every 10 jobs on farms and ranches, 5 additional jobs are generated in the county.

Impact Type	Labor Force	Impact Multipliers
County Labor Force	760	
Direct Impact	215	
Indirect Impact	84	0.39
Induced Impact	28	0.13
Total Impact	327	0.52
Agriculture's Share (%)	43

Value Added Impacts

Farms and ranches generated \$28.2 million of valueadded, or 54% of the county's total gross domestic product of \$52 million in 2017. According to IMPLAN, \$19.7 million was directly contributed by farmers and ranchers. An additional \$6.8 million was generated by businesses supporting agricultural production and \$1.8 million was generated by other related businesses. Each dollar of value-added in agriculture by a farmer or rancher contributes an additional \$0.43 of value-added in other sectors of the county's economy.

Impact Type	Value-Added (\$1 million)	Impact Multipliers
County GDP*	52.0	
Direct Impact**	19.7	
Indirect Impact**	6.8	0.34
Induced Impact**	1.8	0.09
Total Impact**	28.2	0.43
Agriculture's Share (%)	54
