Employment Impact

Agricultural production employed 1,546 workers, or 2% of the county's labor force. According to IMPLAN, economic impact model, 577 of the workers were directly employed in production agriculture. An additional 577 workers were employed in businesses supporting agricultural production, such as feed and fertilizer dealers, and another 392 workers were employed in other related businesses, such as grocery and drugs stores. For every 10 jobs on farms and ranches, 17 additional jobs are generated in the county.

Value Added Impacts

Farms and ranches generated \$28.9 million of value-added, or less than 1% of the county's total gross domestic product of \$5,389 million in 2017. According to IMPLAN, \$5.8 million was directly contributed by farmers and ranchers. An additional \$17.3 million was generated by businesses supporting agricultural production and \$5.8 million was generated by other related businesses. Each dollar of value-added in agriculture by a farmer or rancher contributes an additional \$4 of value-added in other sectors of the county's economy. This significant contribution to the

local economy is because Missoula is an economic hub for western Montana.
