

### 2017 Pest Management Tour offers Last Chance Credit Opportunities for Private Pesticide Applicators across Southcentral Montana.

Cecil Tharp (MSU Pesticide Education Specialist)

Figure 1. Montana counties within PAT District 5.

The Montana State University (MSU) Pesticide Education Program is offering the Pest Management Tour for pesticide applicators across southcentral Montana, Private Applicator Training (PAT) District 5, from October 2<sup>nd</sup> – 6<sup>th</sup> (Figure 1). Private applicators within PAT district 5 should ensure they have attained 6 private applicator credits prior to the January 1<sup>st</sup>, 2018 deadline to avoid losing their private certification. Applicators can assess their credit information at <https://mtplants.mt.gov/> by selecting “pesticide programs” and “pesticide license search” prior to entering their license number. Applicators can also contact their MSU Extension county office for license information. Private applicators may opt to attend only a morning or afternoon session for 3 private applicator credits; or both for 6 credits. Commercial applicator credits can be viewed on the last page of the 2017 Pest Management Tour agenda at [www.pesticides.montana.edu](http://www.pesticides.montana.edu) by selecting “Pest Management Tour”.

Speakers will deliver presentations on managing prairie dogs, managing birds, weed management, pulse diseases, pesticide applicator recordkeeping, pesticide drift, herbicide carryover and diagnosing herbicide injury (presentations vary by location). MSU representatives speaking on the tour include Dr. Fabian Menalled (MSU Cropland Weed Specialist), Dr. Jane Mangold (MSU Rangeland Weed Specialist), Dr. Jessica Rupp (MSU Potato, Sugarbeet and Pulse Pathologist), Stephen Vantassel (MDA Vertebrate Pest Specialist), Eric Clanton (MDA District Officer) and Dr. Cecil Tharp (MSU Pesticide Education Specialist). The tour will cover 10 locations in 5 days:
