PRAIRIE RATTLESNAKE BIOLOGY AND CONTROL

6:00 - 7:00 PM

This training teaches about prairie rattlesnake identification, envenomation, with an emphasis on how to avoid being bitten and how to reduce conflicts with snakes. It will help you identify whether rattlesnakes are currently living in a structure, disease safety, and how to manage conflicts effectively and responsibly.

BAT DAMAGE MANAGEMENT

7:00 - 8:00 PM

This one-hour presentation teaches about bats in Montana, how to identify whether they are living in a structure, disease safety, how to manage conflicts effectively and responsibly, and tips on hiring a professional.
