

# McCone County

## Montana Poverty Report Card

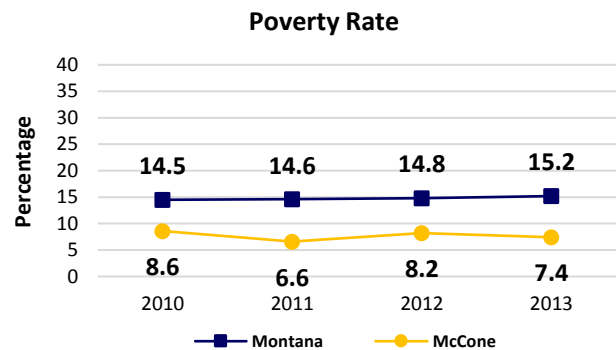

June 2016

### Summary

The poverty rate for McCone County decreased from 8.6% in 2010 to 7.4% in 2013. For the month of December in 2011 and 2014, the county's unemployment rate decreased from 3.0% to 2.4%. Median income in 2014 was higher in McCone County (\$48,194) than the state of Montana (\$46,766). Eligibility for free and reduced school lunch in the county decreased slightly from 30.1% in 2013 to 29.3% in 2016. The LIHEAP case load for the county remained constant at 11 cases in both 2012 and 2015.

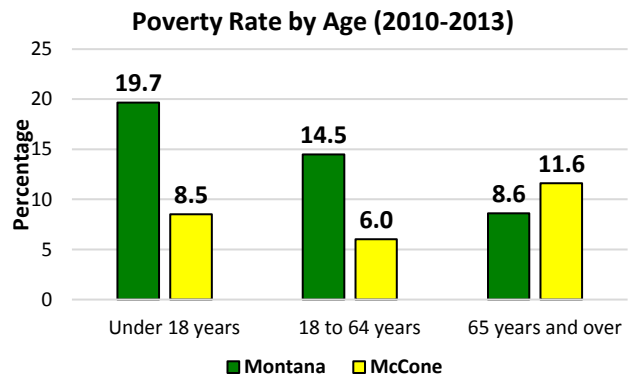

### Poverty Rate

- The McCone County poverty rate is 7.4% in 2013. This is less than half the statewide rate of 15.2%. McCone County has consistently had a lower poverty rate than the state.

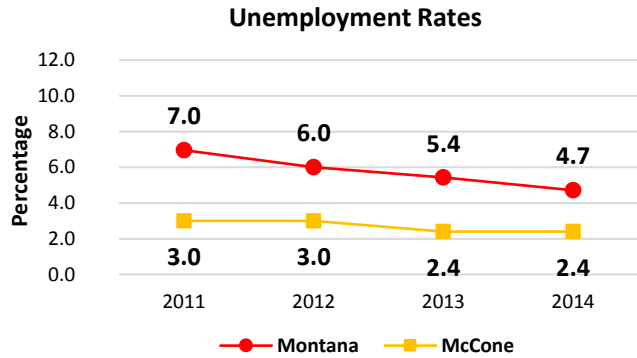

### Poverty Rate by Age

- The poverty rates for the youth (under 18) and working age adults (18 to 64) were lower in McCone County than in Montana. However, the poverty rate for elderly adults (65 and older) was higher in McCone County than in Montana.
- The poverty rate for youth, those under 18 years of age, was lower in McCone County than the state (8.5% versus 19.7%). The poverty rate for those 18 to 64 was lower in McCone County than the state (6% versus 14.5%). However, the poverty rate for elderly adults (65 and older) was slightly higher in McCone County than the state (11.6% versus 8.6%).

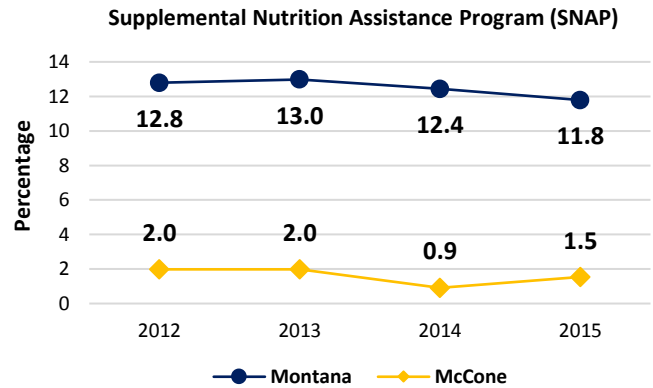

## Unemployment Rate

- The unemployment rate in McCone County has been fairly consistent at slightly less than 3% from 2011 to 2014. The statewide unemployment rate declined from 7% in 2011 to less than 5% in 2014.

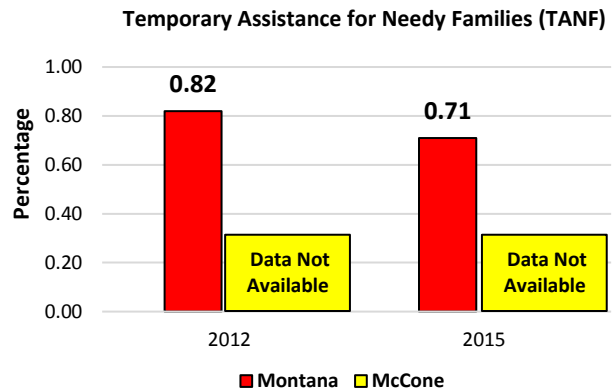

## Supplemental Nutrition Assistance Program (SNAP)

- The SNAP Program had 54,535 cases active in June of 2015 providing benefits to 116,843 Montanans. The average monthly benefit per case was \$254 (or \$118 per person). This represents 11.8% of the Montana population. These numbers are down from 2012 when there were 58,918 cases representing 126,547 recipients or 12.8% of the population. Also in 2012, the average benefit was \$276 per case or \$128 per person. Each program statistic has declined since 2012.
- In 2015, 1.5% of the population in McCone County was receiving SNAP benefits. In 2012, 2.0% of the population received benefits.

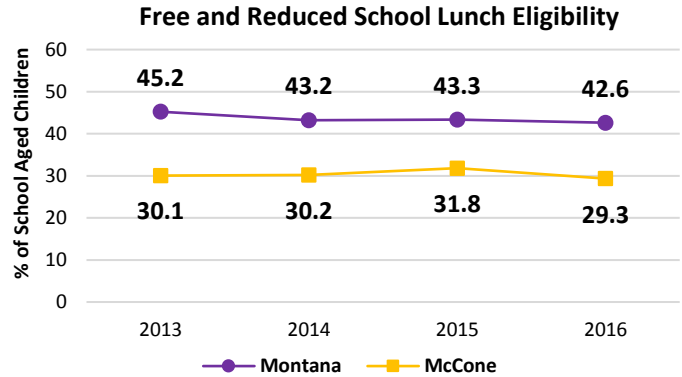

## Temporary Assistance for Needy Families (TANF)

- The TANF program had 2,936 active cases in Montana in June of 2015 benefiting 7,007 individuals (0.71% of the population). The average benefit per case was \$374 per month. These numbers are down from 2012 when there were 3,282 cases benefiting 8,162 individuals (0.82% of the population). The average benefit in 2012 was \$426 per month.
- County level data for the TANF is not available for McCone County.

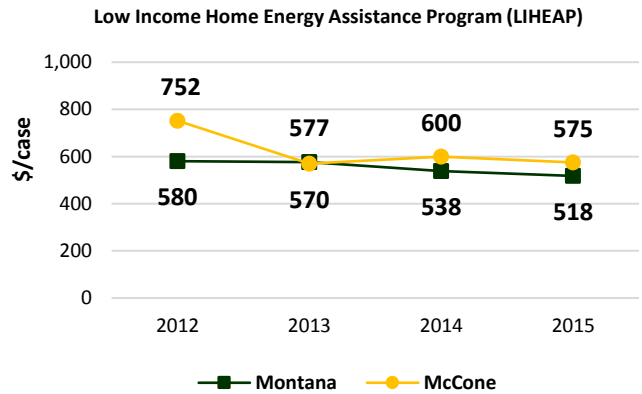

## Free and Reduced School Lunch Eligibility

- The percentage of school-aged children eligible for free and reduced school lunch in the county decreased from 30.1% in 2013 to 29.3% in 2016, while the state decreased from 45.2% in 2013 to 42.6% in 2016.

## Utilization of Low Income Home Energy Assistance Program (LIHEAP)

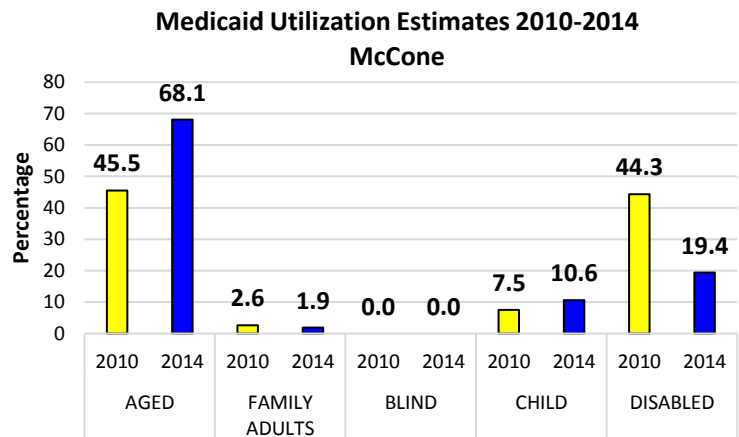

- The LIHEAP case load remained the same (11 cases) for the county and increased by over 9.5% (10,765 in 2012 to 11,795 in 2015) for the state from December 2012 to December 2015. The LIHEAP payments per case decreased 23.5% (\$752 in 2012 to \$575 in 2015) in the county and decreased 10.8% (\$580 in 2012 to \$518 in 2015) for the state from December 2012 to December 2015.

## Medicaid Utilization Estimates

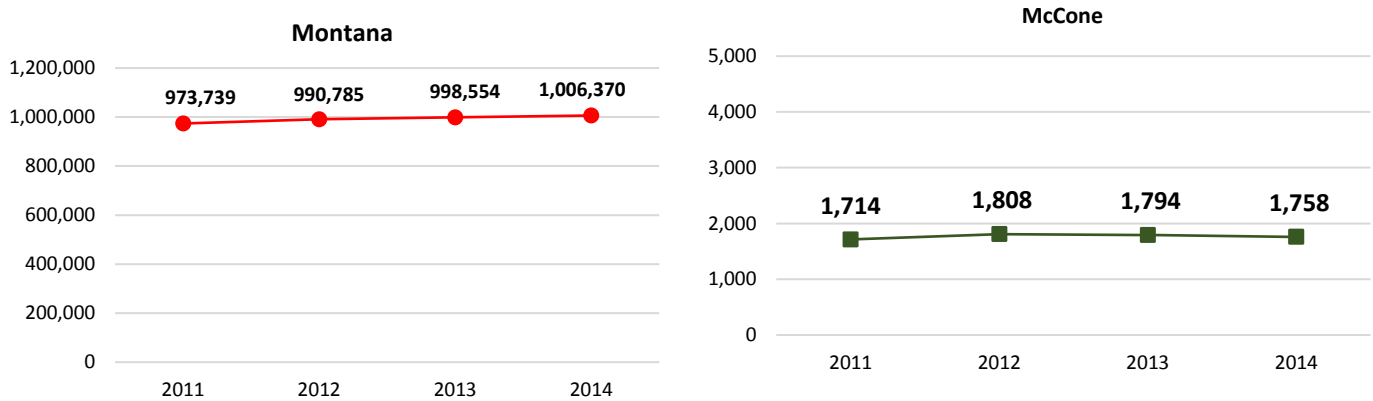

- The county's aged (elderly) and child clients accounted for a higher percentage of Medicaid's Physical Health funding utilization in 2014 than 2010. Medicaid Physical Health expenditures in the county increased by 61.9% (\$400,000 in 2010 to \$600,000 in 2014), while increasing over 17.5% (\$624.4 million in 2010 to \$733.7 million in 2014) in the state.

Medicaid Physical Health	McCone	Montana	%
2010 (x\$1 million)	0.4	624.4	0.1
2014 (x\$1 million)	0.6	733.7	0.1

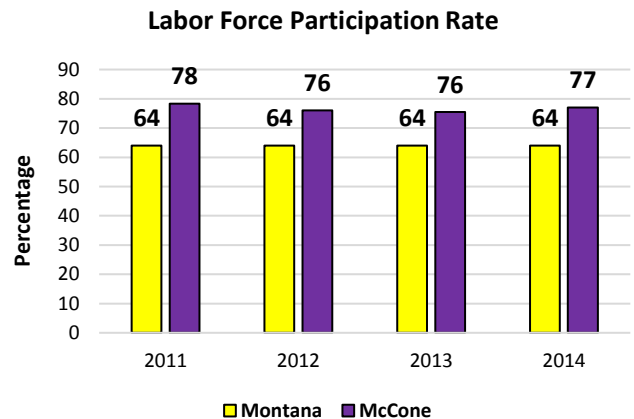

## Population

- From 2011 to 2014, the population of McCone County increased by 2.6%.
- During the same time period, the state of Montana’s population increased by 3.4%.

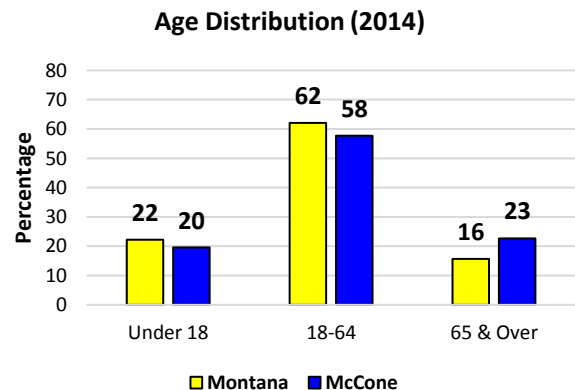

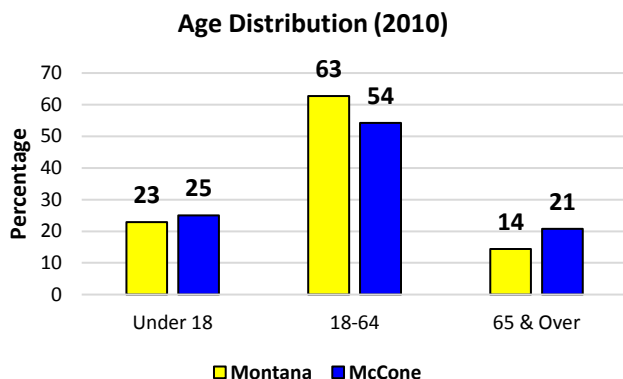

## Labor Force

- Labor force participation rates (LFPR) were substantially higher in McCone County than for the state of Montana from 2011 through 2014.

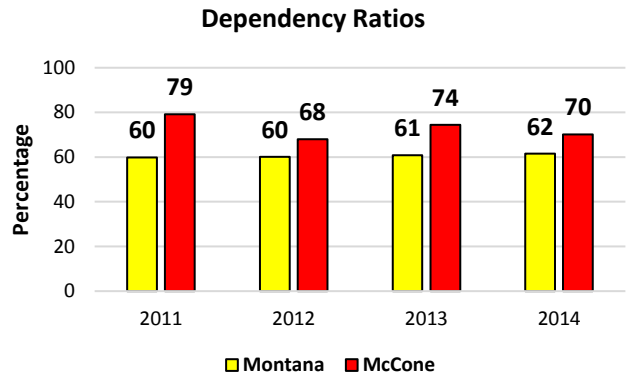

## Age Distribution

- In 2014, the county’s Under 18 population was a lower proportion than for Montana. The county’s 65 & older population was a higher proportion than for Montana.

## Dependency Ratios

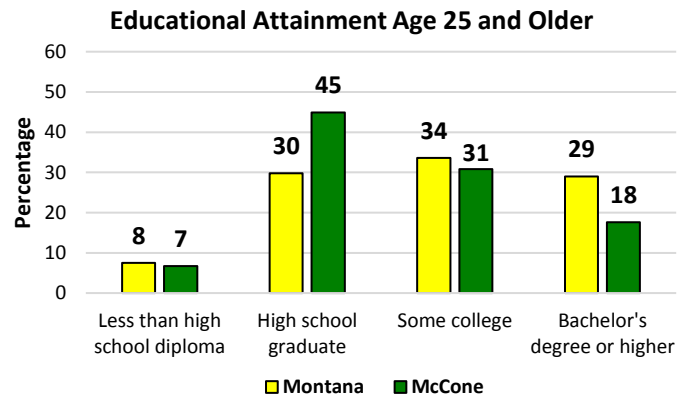

- The dependency ratio is the number of young (0 to 17) and elderly (65 and older), who are said to be dependent, divided by the working age (18 to 64) population.
- The county's dependency ratio was substantially higher than the state's dependency ratio from 2011 to 2014.
- The county's dependency ratio decreased from 79% in 2011 to 70% in 2014, while the state's dependency ratio increased from 60% in 2011 to 62% in 2014. This high dependency ratio is driven by the county's high old age dependency ratio (39% in the county versus 25% in the state).

## Educational Attainment Age 25 and Older

- In 2014, 7% of county residents aged 25 and older did not obtain a high school diploma, while the state average was 8%.

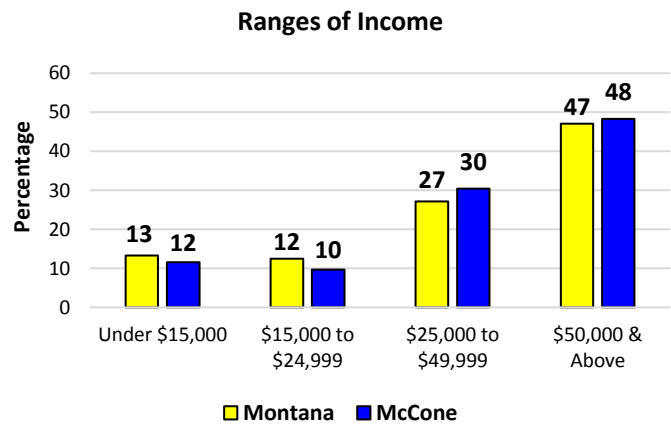

Data Note: Educational Attainment is measured by the American Community Survey 60 month (2010 to 2014) estimate.

## Ranges of Income

- Twenty Five percent of households in Montana earned less than \$25,000 a year. Over the same time period, 47% of Montana households earned \$50,000 or more.
- The percentage of households in McCone County with household income of less than \$25,000 per year was 22%, which is 3% lower than the statewide rate.

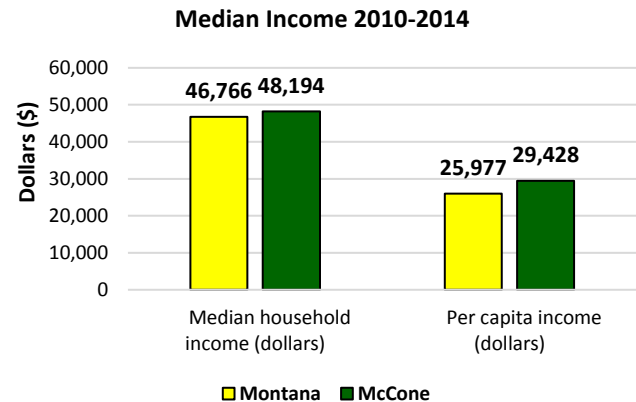

Data Note: Income is measured by the American Community Survey 60 month (2010 to 2014) estimate.

## Median Income

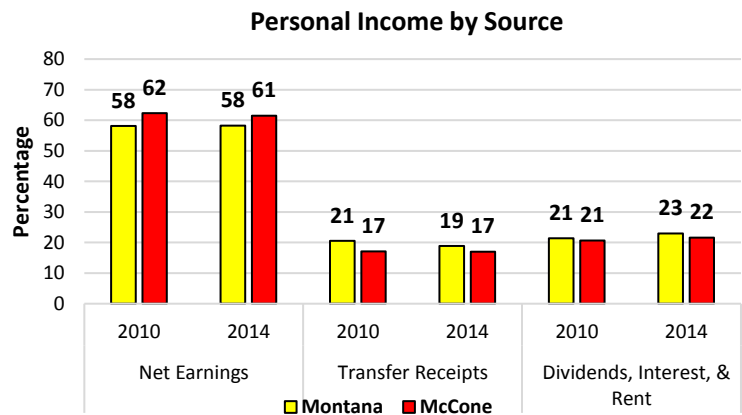

- The median income and the per-capita income amounts were higher for the county than the state.

Data Note: Income is measured by the American Community Survey 60 month estimate based on 2010 to 2014 data.
