
Integrating Web 2.0 Technologies Into Your Courses

Join us for a session on the latest Web 2.0 tools that you can use with your face-to-face and distance classes.

You will be introduced to online tools that will allow you and your students to create interactive and collaborative graphic organizers, posters, word clouds, videos, and much more. Some of the tools discussed will include Animoto, Glogster, Wallwisher, and Popplet.

The presenters have used these tools extensively for middle and high school classes and will share their examples with us as well as provide time to discuss how you can use these tools in your college classes.

About the presenters

*Workshop presenters **Nicole Wanago** and **Lindy Hockenbary** develop financial education curriculum via Family Economics Financial Education of the Take Charge America Institute, University of Arizona College of Agriculture & Life Sciences. Both Nicole and Lindy graduated from MSU with bachelor's degrees in Health & Human Development.*

*This workshop is worth
1 unit toward the
**Certificate of
Teaching Enhancement.***
