Department of Microbiology & Immunology Scientific Proposal Writing Course (MB591)

Tuesdays and Thursdays 9:00 AM – 12:00 PM, July 31st – August 30th

In today's highly competitive funding climate, research scientists and engineers must be skilled grant writers. The goal of this course is to provide doctoral students with strategies, practical skills, and experience in seeking funding for their research as well as writing and evaluating scientific proposals. The student should leave this

course with a research proposal that is ready or near-ready for submission to an identified funding agency. Instructors: Dr. Blake Wiedenheft and Dr. Eric Boyd
Email Ileana.yatesjohnson@montana.edu to sign up or ask questions.

Get out in Bozeman this summer!

The ASMSU [Outdoor Recreation Program](#) provides students with opportunities for adventure, discovery and personal growth through outdoor adventure pursuits. There are many summer orientation adventure programs for new students or families to enjoy Montana's natural beauty and meet other students.

[Art Walks](#) take place on the second Friday of the month from June through September in downtown Bozeman. Different galleries feature artists' openings and often provide complimentary hors d'oeuvres and refreshments.

Attending the [Music on Main](#) concert series is a great way to enjoy historic downtown Bozeman! Different bands play each Thursday evening throughout the summer. Rotating food vendors and local non-profit booths provide family-friendly activities.
