

Welcome to Montana State University!

We are so excited for you to join us in the coming semester.

At this time, the details of format and time for the New Student Orientation at MSU-Bozeman have yet to be finalized. However, all new international undergraduate students will be registered for the New Student Orientation for Spring 2021. You will receive information about the format via email as soon as this has been finalized.

All new International Graduate and Undergraduate students that plan to be on campus will be required to attend an Immigration session as part of the New Student Orientation. Online only students will not be required to attend this session until they arrive on campus. Information about the immigration session will be announced via email, so please make sure you are receiving our emails.

If you have questions about orientation or MSU, please contact globalstudy@montana.edu.

Sincerely,

Your International Admissions and Advising Team
