

End of Year Survey | Schools + Afterschool | Due June 30, 2021

Evaluation

Instructions

Thank you for participating in Montana Harvest of the Month (HOM) program! We appreciate your commitment to supporting healthy children and learning about Montana agriculture.

As the HOM Team Leader for your school or program, we need your help in completing this required survey.

Before completing this survey, consult with your HOM team members (i.e. food service manager, administrator, educators) to obtain accurate answers to the questions. Teams can use this printable version to gather answers and the Team Leader/Contact should **submit the survey online** at:

https://montana.qualtrics.com/jfe/form/SV_2lSmvTaN0C914rj

Please submit one survey per participating school or afterschool program site. Do not submit the report for the district or overall afterschool program that includes multiple sites. For example, if you have four schools participating in a district, submit four separate surveys. Responses for the food service related questions may be answered on the district or school food authority level rather than specific school or afterschool program site.

You can register or cancel registration for any of your site(s) for the **2021-2022** school year in this survey. You may also receive additional printed packet(s) for your sites upon request. Sites that register for **2021-2022** school year will not need to complete a Baseline Survey for the 2021-2022 school year (only the End of Year Survey each year).

If you have any questions or need assistance completing this survey, please contact Aubree Roth at aubree.roth@montana.edu or (406) 994-5996.

It is important for Montana Team Nutrition to understand what you like about Harvest of the Month and how to better design Harvest of the Month in the future. If you choose, this survey will also be entered into a research study. Participation in this study is voluntary and anonymous. You are required to complete the survey for participation in Harvest of the Month, but you can choose to opt your answers out of the research study. You can choose to not answer any questions you do not want to answer and/or you can stop at any time. We will protect the information that you provide by not attaching your name to your responses and safely storing this information. The provided information will be combined with responses from other individuals. Your participation is valuable in understanding how to improve Harvest of the Month in the future. This study is supported by USDA Team Nutrition.

Contact information: You may contact our research team if you have any questions about this research. You may also contact a representative at Montana State University with any question about your involvement this study. The contact for this is Dr. Mark Quinn, Chair of the Institutional Review Board, (406) 994-4707; email: mquinn@montana.edu.

- I agree to my survey responses being part of a research study.
- I do not want my survey responses to be part of a research study.

Participation – 2020-2021 School Year

Please complete the following questions using information from the **2020-2021** school year.

11. School or afterschool program site student enrollment
If this varies significantly, please use average student enrollment. Use most current enrollment.
12. For the **2020-2021** school year, how many **students** participated in the Harvest of the Month **educational activities** at this school or afterschool program site? If conducting school-wide you can use enrollment. Do not duplicate students. For example, if a classroom of 30 students participated in HOM activities each month (10 activities), they count as 30 unduplicated students.

Questions for Food Service Manager/Staff

The following questions are regarding the food service piece of the Harvest of the Month program. Please consult with your food service staff team member to answer these questions.

13. You may answer the **food service questions** using district-wide information OR for the specific school or program site you are reporting in this survey. Indicate if the following questions are answered on behalf of the whole district or individual site (school or afterschool program).
Please select one.
- District
 - Participating school
 - Afterschool program site
14. For the **2020-2021** school year, about how much of your total food purchases (in dollars) were spent on local/Montana foods NOT INCLUDING fluid milk? If you're not sure, a rough estimate is perfectly acceptable.
15. For the **2020-2021** school year, how much of your total local food purchases (in dollars) were spent on **specialty crop foods** specifically? Examples include: cherries, kale, apples, squash, carrots, beets, lentils, greens, etc. Does not include: meats, grains, or milk. If you're not sure, a rough estimate is perfectly acceptable.
16. Please list any of the Harvest of the Month items you had challenges sourcing locally/from Montana during **2020-2021** school year. Please explain your challenges with sourcing. *Leave blank if not applicable.*
17. For the entire **2020-2021** school year, please list the business names of the local/Montana vendors, food businesses, and farmers from whom your school or afterschool program's food service has purchased food.
18. For the entire **2020-2021** school year, how often are the following foods served in your food service program that were **grown locally or in Montana**. Can be served in a meal, snack, or salad bar.
