

## College of Nursing Technical Requirements

Distance education courses require Internet access in addition to the necessary computer hardware and software to view course lectures throughout the term, complete course assignments, and connect to the College of Nursing audio/video systems.

All students are required to have a laptop with current Operating System, updated Browser and Software.

MSU provides multiple campus-wide software licenses free to all MSU enrolled students. Please review the MSU Student IT Services page to get an updated list of what is available prior to purchasing software.
