

## Non-Degree Graduate Coursework Information Guide

### Facts to Be Aware Of Before Proceeding as a Non-Degree Student

- Transfer of non-degree credits to a MN or DNP Program of Study is restricted. Course work taken on a non-degree basis may transfer to a degree option if the student is admissible at the time they enrolled in nursing courses as a non-degree seeking student.
- Completion of courses as a non-degree seeking student does not in and of itself guarantee acceptance into the MN or DNP degree programs at a later date.
- Non-degree students are not eligible for financial assistance of any kind.

### If You Decide to Proceed and Register as a Non-Degree Seeking Student

- Review course information for pre-requisites. Online catalog information is available at <http://catalog.montana.edu/coursedescriptions/nrsg/>.
- Course enrollment is based on 1) available space, 2) completion of course prerequisites, and 3) the instructor's written permission.
- Non-degree students who enroll in graduate nursing courses are expected to follow the same schedule as matriculated students (e.g. travel to Bozeman for orientation and face-to-face course meetings at the beginning of the fall semester) unless alternate arrangements have been made.
- Graduate nursing courses are anchored in Desire2Learn.
- Proficiency in computer skill and Internet access is required. See Technical Requirements at [http://www.montana.edu/wwwnu/pdf/MN\\_Technical\\_Requirements.pdf](http://www.montana.edu/wwwnu/pdf/MN_Technical_Requirements.pdf).

### Steps to Apply

- Submit an official non-degree graduate application to the Graduate School <http://www.montana.edu/gradschool/admissions/apply.html>.

NOTE: The Graduate School will mail an acceptance letter with registration information directly to the applicant.
