CONTRACTOR NOTES:

The data center is designed and equipped to minimize the risk of fire and provide a controlled environment for computer equipment. The contractor is responsible for maintaining the facility and ensuring proper functioning. All work shall be performed in accordance with the specifications and drawings provided. The contractor shall be responsible for any damage caused by unauthorized access or work not performed as specified.

STAGING NOTES:

1. The contractor shall be responsible for securing and arranging a staging area as required. All materials, equipment, and vehicles shall be installed in the designated area.
2. Construction staging areas shall be protected from damage and shall be replaced if damaged. No parking in the staging area.
3. Contractors shall be responsible for the safety and security of their workers and equipment.
4. Contractors shall coordinate with the university for access and clearances.
5. Contractors shall be responsible for removing all materials and equipment from the site upon completion of the work.

STAGING LEGEND:

- Construction staging areas shall be protected from damage.
- No parking in the staging area.
- Contractors shall coordinate with the university for access and clearances.
- All materials and equipment shall be removed from the site upon completion of the work.
