

Science Olympiad Parking Information

Wednesday, March 8, 2023

In order to ensure a safe and efficient unloading and loading of all students, please follow instructions and map below as well as those given by parking attendants. Drop off and pick up locations **are not** for long term parking. Ensure your students are ready for pickup prior to leaving long term bus parking in order to **keep curbside loading time limited to 5 minutes and minimize congestion.**

Buses are encouraged to approach campus from the East on Kagy Blvd. Unless you are staying in a hotel or need to access from 19th Ave, please get on I-90 and take exit 309 into Bozeman. Head west on Main Street to the first light, Highland Blvd (approx. 1/4 mile). Turn left on Highland and go approximately 1 mile to Kagy Blvd. Turn right on Kagy Blvd for approximately 1 mile to arrive at S. 7th for drop-off at the SUB.

All buses must approach the SUB entering from Kagy turning North onto S. 7th Ave. for drop-off and pick-up. See the map for the loading/unloading and parking locations. **Please do not attempt to access campus through Bobcat Lot 15 or the Service Drive behind the Fieldhouse.**

After unloading, buses should proceed East on Grant St. to S. Willson Ave, then turn South. Once on S. Willson Ave. buses should turn West on Kagy and proceed to one of three following designated parking spaces.

Museum of the Rockies – First Fill

S. 7th Ave (South of Kagy) – Second Fill

Grace Bible Church – Remote Option/Overflow

Our staff will fill Museum of the Rockies first, South 7th Ave. second, and Grace Bible Church as the overflow/last option. Please be advised that once bus parking in the first two areas fills, staff will waive you on to the next option. We do recommend that if you do not need to park on-campus as part of the event that you proceed to Grace Bible Church. A shuttle will be provided by the event for those at the Grace Bible Church location to access campus.

A credential is available for vans and small buses to park in Stadium Lot 25. Personal vehicles or vehicles of guests should utilize pay parking in the Parking Garage. More information on visitor parking can be found here. <http://www.montana.edu/parking/directions.html>.

Please be aware that this is all happening while MSU classes are in session and campus is at high activity. Please heighten your awareness to pedestrians, vehicle and bicycle traffic while dropping off, picking up and parking.
