To download the source files to ArcGIS Pro to install and activate on your Windows based PC. (Last Updated: 4/26/2024 10:27)

- Go to <u>ArcGIS Pro 3.1</u> (If you are having access issues with the above link, you need to log into MSU's Sharepoint with your NetID, see step #2.)
- 2. Log into <u>MSU's Sharepoint</u> with your NetID@msu.montana.edu and password.
- 3. Authenticate with Duo.
- 4. Install ArcGISPro_31_184994.exe, and the cumulative patch *314* (in file the filename) and higher.
 - a. ArcGIS ProHelp_31_185018.exe is optional.
 - b. Other files are unnecessary for student use.
 - c. If you encounter a .NET error during the ArcGIS Pro installation as below,

Ari	GIS Pro Installer Information	×	e tł
18 :e 🧎	ArcGIS Pro requires Microsoft .NET Desktop Runtime (x64) 6.0.x, minimum 6.0.5. To download and install Microsoft Windows Desktop Runtime, visit the Microsoft website or contact your system administrator.		
	OK		
pp		-	

1. go to Microsoft's dotnet site to download and install .Net.

https://dotnet.microsoft.com/en-us/download/dotnet/6.0 See image on the next page.

- 2. Scroll down to .NET Desktop Runtime.
- 3. Download and install the x64. See the next image.

4. After installing .Net Desktop Runtime, navigate to the location of ArcGIS Pro download and restart the installation process (note, you can click No to All during the extraction process.) During the installation process, deselect the option to help ESRI improve their product or it will slow down your computer.

Instructions to activate/sign in to ArcGIS Pro

1. Open the ArcGIS Pro application.

2. In Your ArcGIS organization's URL, enter **sscmsu**. Check the Remember this URL. Check the blue Continue button. See next image.
