TEST INSTRUCTIONS (PLEASE READ CAREFULLY!)
A Fire Fighter 2 Candidate has an 18 month period to complete this test. Once the FSTS administered portion of the test has begun, it must be completed within 9 months. This period begins with the first test date entered and ends with the last test date a skill was demonstrated and recorded. Notification: When testing is planned or scheduled, contact your local FSTS Field Trainer and give notice of the dates, times, and location of the testing. Occasionally, the FSTS Field Trainer is required to observe local testing to ensure compliance with accreditation and certification rules. Reference materials from any source may be used by the Candidate to complete the locally administered, open resource portions of the testing process. All answers and signatures in this test booklet must be hand written. The (FSTS) Fire Fighter 1 Coaching Package is a vital training tool for instructors teaching the tactical skills listed inside the rear cover. Other resources are listed after some test elements and are available from the FSTS Resource Center.

The Chief Officer (CEO) of your Fire Service Organization must sign off in the signature block under "Fitness Requirements" and “Facilities and Equipment Compliance” before any testing begins. An FSTS authorized test administrator, a certified instructor or Chief Officer of the Department who has a Proctor's Affidavit on file with the FSTS must sign off each signature block and enter the date after witnessing your completion of each element. Every signature block must be signed and dated. The individual who conducts the test for an element and signs off a block, must be someone other than the instructor the Candidate was trained and learned the skill from. Original signatures are required. The reference source cited after each element is the authoritative source for satisfactory performance.
Safety - All of the performance elements/objectives shall be performed swiftly, safely, and with competence. Each element/objective shall be demonstrated in its entirety.

Fitness Requirements
The signature of the Chief of the Fire Service Organization is evidence to FSTS that the candidate has met local requirements with regard to good physical and mental condition and has a background indicating good moral character. The local chief should ensure that the candidate has an appropriate background and physical and mental condition prior to beginning this test. NFPA 1582 (Medical Requirements for Fire Fighters) is recommended for use by local authorities in assessing the physical and medical evaluation of candidates.

Facilities, Equipment and NFPA 1403 Compliance:
The signature of the chief of the Fire Service Organization is evidence to FSTS that the facilities and equipment used for testing are in compliance with applicable NFPA Standards, and NFPA 1403 Standard on Live Fire Training Evolutions is followed.

Signature Verification:
For the purpose of signature verification to sign off in this test booklet I certify my signature as:
Signed: __________________________ Printed Name: __________________________

If you have questions, contact the FSTS at (406) 761-7885 during office hours, or any of the following representatives:
Upon completion of this Test Documentation Booklet, make a copy for your records, then give to a FSTS staff member OR send to FSTS via certified mail to: MSU Fore Services Training School
409 14th St SW Great Falls MT 59404.

Duration of Certification:

Accredited certifications issued by the Montana Fire Services Training School do not have an expiration date. However, for purposes of progression within the FSTS certification system, a certification is recognized for five years from the test completion date. The policy regarding this is part of the Montana Fire Service Professional Qualifications Certification System, which is adopted by the Fire Services Training School Advisory Council. The policy is shown below.

304 Duration of Certification
304.1 Certifications issued under this system are recognized for purposes of progression within the system from the test completion date to the date a revised testing process is implemented by FSTS, however, certification will be recognized for progression purposes for a minimum of 5 years from its date of issuance.

304.2 Individuals with certifications which have lapsed under 304.1, are treated as new to the level or system and must be re-tested to the current standard for a given level.
Definitions and Acronyms - The following definitions and acronyms for the terms indicated are intended for use with the Certification Program.

Approved - Acceptable to the FTS or their authorized representative.

Authority having jurisdiction - Fire Training School (FTS).

Candidate - The person who has made application for certification.

Define - To describe the basic qualities and principles.

Demonstrate - To show by actual use or simulation.

EAP - Employee Assistance Program

Fire company - Subpart of FSO to which an individual is assigned.

Fire department - An agency of government charged with primary fire protection responsibility within a city, county, reservation, or district.

FSO - Fire service organization.

FSTS Website – http://www.montana.edu/wwwfire

Identify - To physically select, indicate, or explain verbally or in writing, using standard terms recognized by the fire service.

IMS - Incident Management System

May - The term is used to state a permissive use or an alternative method to a specified requirement.

Objective - A goal that is achieved through the attainment of a skill, knowledge, or both, which can be observed or measured.

Qualified - Having satisfactorily completed the requirements of the objectives.

PAR - Personnel Accountability Report

PASS - Personal Alert Safety System

Safely - To perform the objective without unreasonable risk or injury to self, others or equipment.

Shall - The term indicates a mandatory requirement.

Swiftly - The time, as determined by the qualified evaluator or FTS that it takes to perform the objective satisfactorily.

Technique - The systematic procedure by which a task is accomplished.

With competence - Possessing the knowledge, skill, and judgment needed to perform indicated objectives satisfactorily.
5.1.1 General Knowledge Requirements. Responsibilities of the Fire Fighter II in assuming and transferring command within an incident management system, performing assigned duties in conformance with applicable NFPA and other safety regulations and authority having jurisdiction procedures, and the role of a Fire Fighter II within the organization.

The candidate has demonstrated the functions in assuming and transferring command within an incident management system, performing assigned duties in conformance with applicable NFPA and other safety regulations and authority having jurisdiction procedures, and the role of a Fire Fighter II within the organization. (Resource: Your FSO Leadership, IFSTA ESSENTIALS, 7th Ed., p. 899-829; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 4th Ed p. 815-840, FSTS Live Fire Incident Operations)

Signed: _________________________________ Date: ____/____/____

5.1.2 General Skill Requirements. The ability to determine the need for command, organize and coordinate an incident management system until command is transferred, and function within an assigned role in the incident management system.

The candidate has demonstrated the ability to determine the need for command, organize and coordinate an incident management system until command is transferred, and function within an assigned role in the incident management system. (Resource: Your FSO Leadership, IFSTA ESSENTIALS, 7th Ed., p. 899-829; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 4th Ed p. 815-840, FSTS Live Fire Incident Operations)

Signed: _________________________________ Date: ____/____/____

5.2.1 Complete a basic incident report, given the report forms, guidelines, and information, so that all pertinent information is recorded, the information is accurate, and the report is complete. {*Label and attach a copy of the report to this page.*} (Resource: Local operating procedures, IFSTA ESSENTIALS, 7th Ed., p. 926-927, 930; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 4th Ed p. 846-847, FSTS FFII Skills Testing Guide 1)

Signed: _________________________________ Date: ____/____/____
5.2.2 Communicate the need for team assistance, given fire department communications equipment, standard operating procedures (SOPs), and a team, so that the supervisor is consistently informed of team needs, departmental SOPs are followed, and the assignment is accomplished safely.

The candidate has communicated the need for team assistance, given fire department communications equipment, standard operating procedures (SOPs), and a team, so that the supervisor is consistently informed of team needs, departmental SOPs are followed, and the assignment is accomplished safely. (Resource: Local operating procedures. IFSTA ESSENTIALS, 7th Ed., p. 918-921, 929; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 4th Ed. p. 815-840, FSTS Live Fire Incident Operations)

Signed: _______________________________ Date: ___/___/___

5.3.1 Extinguish an ignitable liquid fire, operating as a member of a team, given an assignment, an attack line, PPE, a foam proportioning device, a nozzle, foam concentrates, and a water supply, so that the correct type of foam concentrate is selected for the given fuel and conditions, a properly proportioned foam stream is applied to the surface of the fuel to create and maintain a foam blanket, fire is extinguished, reignition is prevented, team protection is maintained with a foam stream, and the hazard is faced until retreat to safe haven is reached.

The candidate has demonstrated extinguishment of an ignitable liquid fire, operating as a member of a team, given an assignment, an attack line, personal protective equipment, a foam proportioning device, a nozzle, foam concentrates, and a water supply, so that the proper type of foam concentrate is selected for the given fuel and conditions, a properly proportioned foam stream is applied to the surface of the fuel to create and maintain a foam blanket, fire is extinguished, reignition is prevented, team protection is maintained with a foam stream, and the hazard is faced until retreat to safe haven is reached. (Resource: IFSTA ESSENTIALS, 7th Ed., p. 871-883, 892-895; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 4th Ed. p. 863-864; FSTS Flammable Liquid Tactic, FSTS FFII Skills Testing Guide 2)

Signed: _______________________________ Date: ___/___/___

Describe the methods by which foam prevents or controls a hazard.

5.3.2 Coordinate an interior attack line for a team’s accomplishment of an assignment in a structure fire, given attack lines, personnel, personal protective equipment, and tools, so that crew integrity is established; attack techniques are selected for the given level of the fire (for example, attic, grade level, upper levels, or basement); attack techniques are communicated to the attack teams; constant team coordination is maintained; fire growth and development is continuously evaluated; search, rescue, and ventilation requirements are communicated or managed; hazards are reported to the attack teams; and incident command is apprised of changing conditions.

The candidate has demonstrated coordinating an interior attack line team’s accomplishment of an assignment in a structure fire, given attack lines, personnel, PPE, and tools, so that crew integrity is established; attack techniques are selected for the given level of the fire (for example, attic, grade level, upper levels, or basement); attack techniques are communicated to the attack teams; constant team coordination is maintained; fire growth and development is continuously evaluated; search, rescue, and ventilation requirements are communicated or managed; hazards are reported to the attack teams; and incident command is apprised of changing conditions. (Resource: IFSTA ESSENTIALS, 7th Ed., p. 783-802, 902-905, 907-910, 912-919, 921-922, 929; NFPA/IAFC FUNDAMENTALS OF FIREFIGHTER SKILLS, 4th Ed. p. 857-863; FSTS Live Fire Incident Operations).

13
5.3.3  Control a flammable gas cylinder fire operating as a member of a team, given an assignment, a
cylinder outside of a structure, an attack line, PPE, and tools, so that crew integrity is
maintained, contents are identified, safe havens are identified prior to advancing, open valves are
closed, flames are not extinguished unless the leaking gas is eliminated, the cylinder is cooled,
cylinder integrity is evaluated, hazardous conditions are recognized and acted upon, and the
cylinder is faced during approach and retreat.

The candidate has demonstrated control of a flammable gas cylinder fire operating as a member of a
team, given an assignment, a cylinder outside of a structure, an attack line, personal protective
equipment, and tools, so that crew integrity is maintained, contents are identified, safe havens are
identified prior to advancing, open valves are closed, flames are not extinguished unless the leaking gas
is eliminated, the cylinder is cooled, cylinder integrity is evaluated, hazardous conditions are recognized
and acted upon, and the cylinder is faced during approach and retreat. (Resource: IFSTA ESSENTIALS, 7th Ed., p
883-889, 896; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS 4th Ed. p. 865-867; FSTS Flammable Gas Tactic)

Signed: _________________________________________ Date: _____/____/_____

Describe the characteristics of pressurized flammable gases
(Resource: IFSTA ESSENTIALS, 7th Ed., p 883-889, 896; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS 4th Ed. p. 865-

5.5.2 Present fire safety information to station visitors or small groups, given prepared materials, so that all information is presented, the information is accurate, and questions are answered or referred.

The candidate has presented fire safety information to station visitors or small groups, given prepared materials, so that all information is presented, the information is accurate, and questions are answered or referred. (Resource: IFSTA ESSENTIALS 7th Ed., p. 982-991, 1016-1017; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 4th Ed. p. 1007-1008 ; FSTS FFII Skills Testing Guide 6)

Signed___________________________________________________ Date: ____/____/_____

17
5.5.3 Prepare a pre-incident survey, given forms, necessary tools, and an assignment, so that all required occupancy information is recorded, items of concern are noted, and accurate sketches or diagrams are prepared.

The candidate has prepared a pre-incident survey, given forms, necessary tools, and an assignment, so that all required occupancy information is recorded, items of concern are noted, and accurate sketches or diagrams are prepared. *(Label and ATTACH a copy of the survey to this page (Utilize Quick Access Form provided in appendix))* (Resource: IFSTA ESSENTIALS, 7th Ed. p. 991-1012, 1018; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS 4th Ed. p. 1014-1032; ; FSTS FFII Skills Testing Guide 7)

Signed: ________________________________ Date: ____ / ____ / ____

5.5.4 Maintain power plants, power tools, and lighting equipment, given tools and manufacturers’ instructions, so that equipment is clean and maintained according to manufacturer and departmental guidelines, maintenance is recorded, and equipment is placed in a ready state or reported otherwise.

The candidate has maintained power plants, power tools, and lighting equipment, given appropriate tools and manufacturers’ instructions, so that equipment is clean and maintained according to manufacturer and departmental guidelines, maintenance is recorded, and equipment is placed in a ready state or reported otherwise. (Resource: IFSTA ESSENTIALS, 7th Ed., p. 959-961, 965-968; FSTS FFII Skills Testing Guide 8)

Signed: ________________________________ Date: ____ / ____ / ____

5.5.5 Perform an annual service test on fire hose, given a pump, a marking device, pressure gauges, a timer, record sheets, and related equipment, so that procedures are followed, the condition of the hose is evaluated, any damaged hose is removed from service, and the results are recorded.

The candidate has performed an annual service test on fire hose, given a pump, a marking device, pressure gauges, a timer, record sheets, and related equipment, so that procedures are followed, the condition of the hose is evaluated, any damaged hose is removed from service, and the results are recorded. (Resource: IFSTA ESSENTIALS, 7th Ed., p. 962-964, 969-971; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 4th Ed. p. 572, ; FSTS FFII Skills Testing Guide 9)
